C5D10170H
Silicon Carbide Schottky Diode
Z-Rec® RECTIFIER

Features
- 1.7kV Schottky Rectifier
- Zero Reverse Recovery Current
- High-Frequency Operation
- Temperature-Independent Switching
- Extremely Fast Switching
- Positive Temperature Coefficient on $V_F$

Benefits
- Replace Bipolar with Unipolar Rectifiers
- Essentially No Switching Losses
- Higher Efficiency
- Reduction of Heat Sink Requirements
- Parallel Devices Without Thermal Runaway

Applications
- Switch Mode Power Supplies (SMPS)
- Boost diodes in PFC or DC/DC stages
- Free Wheeling Diodes in Inverter stages
- 1500V Solar Inverter

Maximum Ratings ($T_C=25$°C unless otherwise specified)

**Diode Model**

\[
V_{FT} = V_T + I_f R_T
\]

\[
\begin{align*}
V_T &= 0.94 + (T_J \cdot -1.0 \times 10^{-3}) \\
R_T &= 0.027 + (T_J \cdot 2.8 \times 10^{-4})
\end{align*}
\]

*Note: \( T_J \) = Diode Junction Temperature in Degrees Celsius, valid from 25°C to 175°C*

**Notes**

- **RoHS Compliance**
  The levels of RoHS restricted materials in this product are below the maximum concentration values (also referred to as the threshold limits) permitted for such substances, or are used in an exempted application, in accordance with EU Directive 2011/65/EC (RoHS2), as implemented January 2, 2013. RoHS Declarations for this product can be obtained from your Wolfspeed representative or from the Product Ecology section of our website at http://www.wolfspeed.com/power/tools-and-support/product-ecology.

- **REACCh Compliance**
  REACCh substances of high concern (SVHCs) information is available for this product. Since the European Chemical Agency (ECHA) has published notice of their intent to frequently revise the SVHC listing for the foreseeable future, please contact a Cree representative to insure you get the most up-to-date REACCh SVHC Declaration. REACCh banned substance information (REACCh Article 67) is also available upon request.

- This product has not been designed or tested for use in, and is not intended for use in, applications implanted into the human body nor in applications in which failure of the product could lead to death, personal injury or property damage, including but not limited to equipment used in the operation of nuclear facilities, life-support machines, cardiac defibrillators or similar emergency medical equipment, aircraft navigation or communication or control systems, or air traffic control systems.
